Safe Environment Program for Children

We are mandated by the Bishop under Article 12 of the Charter for the Protection of Children and Young People to teach a child safety program within the RE program.

This year we will be using a new program published by Loyola Press called Growing with God. This program contains 5 lessons, one (1) lesson will be taught by your student's catechist and the remaining 4 will be provided for parents to cover the material at home with their children.

Summer/Fall: In Person Grades: Summer: 1st, 3rd-7th grades/Fall: 1st, 2nd, 7th and 8th grades
Summer and Fall session catechists will be teaching lesson 2: Abuse prevention, to all students.

Remaining 4 lessons for parents to review with their own children at home. At home guides will be provided to all families via email on the first day of classes.

Fall GIFT: Grades 3-6 grades

Those students that are part of the G.I.F.T. program (grades 3rd-6th), parents will be provided with all 5 lessons (in student folder) and a parent at home guide for each lesson via email during the first week of class.

As the parent of:

First and Last Name of Student(s)	Grade

I have received and reviewed the Growing in God program information and will review this material with my child at home.:
